

Belgians Will Defend Selves

BRUSSELS, Belgium, April 12—It was understood today that Belgium is prepared to defend its territory against any attack and to maintain its position to make any invasion difficult if not dangerous. Most extensive precautions, some of them

effected within the last 48 hours, have been made to defend the frontiers and the Belgian troops are on a strong offensive line bristling with machine guns. Well informed sources denied the truth of reports published abroad of a German ultimatum

to Belgium against placing itself under Allied protection. Belgium had clearly reaffirmed its policy of neutrality (on Wednesday) and yesterday Lieut. Gen. Henri Deleury, chief of Belgian army, said Belgium would defend herself if attacked.

NORWEGIAN GENERAL HEADQUARTERS, Narvik Front, April 12—Reports reaching Norwegian headquarters today asserted that British and Norwegian forces are closing in on Narvik. British destroyers have sunk five more German destroyers, and the German garrison has been cut off from outside communication.

There was no official confirmation of this report from British or other sources. Latest British advice on the Narvik situation were those telling of the unsuccessful naval attack Tuesday. Berlin yesterday asserted that two more British destroyers had been lost at Narvik but indicated they were sunk by mines.

British Sailors Make Landing

(London authoritative sources reported today that sailors from the British destroyer Hardy which was beached after Tuesday's action, had taken to their boats with full arms and appeared to have struck off into Norwegian territory on an expedition of their own.)

I spent much of yesterday from early afternoon until midnight in the Norwegian general headquarters for the Narvik front which have been established here in the steep hills which command the port of Narvik.

Constant reports were coming in on the situation and there was obvious elation in the manner in which Major Olund, commander of the forces, received latest advice.

I talked to Norwegian soldiers who had escaped from Narvik and other travelers from the city who asserted that after the first battle of Narvik on Tuesday when British destroyers were beaten off by the Germans that a new battle was fought on Wednesday in which the British scored a victory.

Premier Says Demands For Use Of Territory Will Be Rejected
By HALGER HANSON
British United Press Cable to The Edmonton Bulletin
STOCKHOLM, April 12—Premier Per Albin Hansson declared tonight that no demands have been made on Sweden for use of her territory by any belligerent power, but that such demands were rejected.

He declared in a broadcast to the nation that Sweden was determined to maintain her neutrality despite extension of war to the Scandinavian peninsula.

He said that use of Swedish territory by any belligerent power for any purpose would be incompatible with strict neutrality and would be rejected.

CARRYOVER OF CANADA WHEAT CROP DROPPING

Rising Prices, Increased Export Drain Adds To Optimism

WINNIPEG, April 12.—(Press) Canada farmers watched their 1939 wheat crop carryover dwindle rapidly yesterday as they waited for favorable spring weather to start their first winter wheat seedling operations since the spring of 1918.

While storage figures point to a huge carryover from last summer's harvest, rising wheat prices and a steady export drain gave optimism the upper hand among prairie producers.

In spite of German raids on Allied shipping overseas shipments of Canadian wheat have shown no decrease over last year's clearance. The war-time rush on information, however, has prevented government officials and export interests from revealing shipping data on point of embarkation.

PRICES ADVANCING

At the same time, wheat prices have risen well over those quoted on world and domestic markets a year ago.

Last year at this time No. 1 Northern wheat commanded only 90 cents a bushel on Winnipeg's market. Exchange value yesterday's "rice for the top grade wheat" was 110 cents, the highest since the war. The export value of the wheat was 110 cents a bushel last year, compared with 90 cents now.

The climatic division of the high seas is evidenced by the steady flow of Canadian wheat to overseas buyers.

Last week 1,162,585 bushels were cleared from Northern wheat to the United States. The 1939, while No. 1 wheat, was shipped, only 1,286,735 bushels, while the 1938 figure was 1,286,735 bushels.

While the beginning of the current crop year, Aug. 1, last, more than 100,000 bushels of Canadian wheat have been carried over to the 1940 market while during the corresponding period of 1938, the carryover was 125,000 bushels.

MUCH STILL STORING

Despite the increased overseas sales, however, there is more than enough Canadian wheat still stored in elevators, terminals, seaports and in the hands of the farmer. There is a surplus of wheat in Canada and the United States.

Latest available figures indicate the total wheat in store in Canada is 1,162,585 bushels, compared with 1,286,735 bushels a year ago. Present storage figures, however, are not considerably from the record high of 1,286,735 bushels established Nov. 24, 1939.

The jammed condition of storage facilities in Canada is due to the fact that the 1939 wheat crop is still being harvested in the United States and the 1938 crop is still being harvested in Canada.

War Developments Keep Lord Halifax From Grit Banquet

LONDON, April 12.—Fast-moving war developments prevented Foreign Secretary Viscount Halifax from attending a dinner of the National Liberal club last night. He sent a note saying:

Resolution On Immigration Is Passed

Resolution advocating the adoption of a legislative policy for the settling of immigrants in the country was passed during the conference of the Alberta I.O.D.E. held at the University of Alberta on Thursday morning. The resolution proposed that greater care be taken by the government in the settling of immigrants so that they might be easily assimilated and sooner comfort with the Canadian standards of education and living. During the morning session reports were submitted by various educational representatives. Mrs. M. Bamberger, of Donalda, speaking for the Camrose constituency, stated that the constituency had been improved and that additional work had been done in the way of entertaining the young people. Women of the constituency are supporting the war work and fund-raising, she stated.

Mrs. W. Farley of Leduc reported that a number of Easter bachelors had been auctioned in the constituency. Lessons in rug-making and "how to buy" have been given, and a greater interest in handicrafts has been shown, with quilts and layettes being furnished for needy families. Reporting on the constituency of Terra-Suavia, Mrs. C. L. Morton stated that the Provincial chapter had been formed for the entertainment of the members of the local groups. Following the morning session, the delegates attended a luncheon at the Corona hotel, and the conference concluded with the delegates going to the Edmonton Provincial Youth Training centre on Hill street, where they were entertained at tea. Mrs. W. J. Melrose of Edmonton was guest speaker at the luncheon.

PENNSYLVANIA IS NOT "THE QUAKER STATE"

Although Pennsylvania has long been known as "The Quaker State," the truth is that it has long since lost this status. It is a Quaker haven in its early history, and will boast about 15,000 of these people in the vicinity of Philadelphia. But the rest of "Quaker" is a misnomer. The Quakers in the United States are the Indiana Yearly Meeting of the Society of Friends (their real name) in the country's largest. Large groups of Quakers also live in Ohio and North Carolina. These people have been known for their integrity, belief in human suffering and dehumanization.
